Verify it.

F-CE-038 03/23/R03

This Halal certificate has been authorized by the HALAL CONTROL (HC) Certification Decision Committee (CDC).
HALAL CONTROL (HC) Germany is an internationally accredited/recognized Halal Certification Body (HCB):
JAKIM, BPJPH, MUIS, CICOT, OIC/SMIIC (HAK), GCC/GSO (GAC, SASO, SFDA, SHC, EIAC, MOiAT, MOPH), IMANOR, EGAC, SANHA
and other reputable Halal authorities. HC is a member of the World Halal Council (WHC) and Association of Halal Certifiers (AHAC).
Note: The current certificate status and document verification are available via the QR code.

Environmental Information

Environmental compatibility

Proportion of easily degradable ingredients: 100 %

The higher the proportion of readily biodegradable ingredients (as defined by OECD Test Guideline 301 or the Detergents Regulation (EC) No. 648/200), the more effectively these ingredients can be broken down in wastewater treatment plants.

Phosphorus content: 0,7 mg/g

Alow phosphorus content means less environmental impact.

Palm oil-based raw materials - RSPO-certified share: 35 %

The RSPO (Roundtable on Sustainable Palm Oil) certification is the most important globally recognized certification for palm oil. The number indicates what percentage of the palm oil used has this certification.

recycling

Recyclability of our containers

All our 1-liter, 5-liter, 10-liter and 600-ml containers have a recyclability of over 95%.

Recycled plastics

Since June 2025, the 600ml and 1-liter bottles have been made from 50% recycled plastic.

Disposal

Please dispose of our uncontaminated and completely emptied containers in the appropriate commercial waste or in the yellow bag, in accordance with official regulations.

Certifications and listings

EcoVadis Gold

We are delighted to receive the Ecovadis Gold Medal, which recognises our strongest result to date: 81 points. This new record score demonstrates our continuous progress and secures us a place among the global leaders.

ISO

These certifications confirm our high standards and commitment to quality, the environment, and occupational safety. They provide you with the assurance that Buzil is a responsible and reliable partner.

Application

dosage

Our dosing balls and pumps help you operate in a cost-effective and environmentally responsible manner. Please follow our dosing recommendations.

Refill

Original bottle can be easily refilled from the practical canister to save packaging waste.

Cold water

Cold water is essential for our product to work optimally, as it helps maintain the stability of the ingredients' structure and ensures effective cleaning. This also saves energy.

transparency

We regularly publish a sustainability report in which we provide information about our initiatives and activities in the areas of the environment and sustainability. You can find the latest report here: https://www.buzil.de/nachhaltigkeit

Environmental Information

Environmental compatibility

Proportion of easily degradable ingredients: 97,8 %

The higher the proportion of readily biodegradable ingredients (as defined by OECD Test Guideline 301 or the Detergents Regulation (EC) No. 648/200), the more effectively these ingredients can be broken down in wastewater treatment plants.

Phosphorus content: 0 mg/g

Alow phosphorus content means less environmental impact.
